Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash ("-") indicates that the value is zero, not available or not applicable. All data are provisional and subject to change.

¹ Country or territory of asylum or residence.

² Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and those granted temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.

³ This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

⁴ Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.

⁵ Refugees who have returned to their place of origin during 2015. Source: country of origin and asylum.

⁶ Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.

⁷ IDPs protected/assisted by UNHCR who have returned to their place of origin during 2015.

⁸ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality. See Annex Table 7 at <http://www.unhcr.org/statistics/15-WRD-table-7.xls> for detailed notes.

⁹ Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.

¹⁰ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

¹¹ Australia's figures for asylum-seekers are based on the number of applications lodged for protection visas.

¹² The refugee population includes 200,000 persons originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

¹³ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

¹⁴ UNHCR's assistance activities for IDPs in Cyprus ended in 1999. Visit the website of the Internal Displacement Monitoring Centre (IDMC) for further information.

¹⁵ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

¹⁶ This revised estimate of 133,770 stateless persons includes only individuals born in the country to parents who were both born abroad, It does not include individuals born in the country to one foreign-born and one Dominican-born parent, as per the previously reported figure of 210,000. This estimate does not include subsequent generations of individuals of foreign descent, as there is no reliable population data available on groups other than first-generation individuals. As such, this estimate does not include all persons without nationality in the country. It will be adjusted as official data becomes available on the number of individuals who have found an effective nationality solution.

¹⁷ All figures relate to the end of 2014 except refugees.

¹⁸ Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

¹⁹ Refugee figure relates to the end of 2014.

²⁰ Figure of stateless persons refers to individuals without a nationality who were born in the Dominican Republic prior to January 2010 and who were identified by UNHCR in Haiti during the reporting period.

²¹ Pending a more accurate study into stateless in Iraq, the estimate of stateless persons in Iraq has been adjusted to reflect the reduction of statelessness in line with Law 26 of 2006, which allows stateless persons to apply for nationality in certain circumstances.

²² Figures are UNHCR estimates.

²³ Includes 33,200 Iraqi refugees registered with UNHCR in Jordan. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

²⁴ This figure includes persons covered by two separate Laws. 178 fall under the Republic of Latvia's Law on Stateless Persons on 17 February 2004, which replaced the Law on the Status of Stateless Persons in the Republic of Latvia of 18 February 1999, and which determines the legal status of persons who are not considered as citizens by the legislation of any State and whose status is not determined by the 25th April 1995 Law (quoted below). 252,017 of the persons reported in this table fall under the Republic of Latvia's 25 April 1995 Law on the Status of Those Former USSR Citizens who are not Citizens of Latvia or of Any Other State, and are granted a transitional legal status to permanently residing persons (non-citizens) which entitles them to a set of rights and obligations generally beyond the minimum rights prescribed by the 1954 Convention relating to the Status of Stateless Persons. The non-citizens enjoy the right to reside in Latvia ex lege and the right to acquire citizenship through registration and/or naturalisation (depending on age). A number of measures have been taken by the Latvian Government to facilitate their acquisition of citizenship; nonetheless, some non-citizens have chosen not to pursue naturalization. Some may have acquired a nationality other than Latvian nationality; however in the absence of reliable data in this regard, UNHCR includes in its statistical reporting the full number of non-citizens reported by Latvia.

Table 1. Refugees, asylum-seekers, internally displaced persons (IDPs), returnees (refugees and IDPs), stateless persons, and others of concern to UNHCR by country/territory of asylum, end-2015

All data are provisional and subject to change.

Country/territory of asylum ¹	REFUGEES					Returned refugees ⁵	IDPs protected/assisted by UNHCR, incl. people in IDP-like situations ⁶	Returned IDPs ⁷	Persons under UNHCR's statelessness mandate ⁸	Others of concern to UNHCR ⁹	Total population of concern
	Refugees ²	People in refugee-like situations ³	Total refugees and people in refugee-like situations	Of whom assisted by UNHCR	Asylum-seekers (pending cases) ⁴						

²⁵ Figure of Stateless persons was estimated from the 2014 census. It does not include an estimated 151,921 stateless IDPs, persons in an IDP-like situation who are also of concern under the statelessness mandate because they are already included within the figures on IDPs. In Rakhine State it is estimated to be approximately one million.

²⁶ Various studies estimate that a large number of individuals lack citizenship certificates in Nepal. While these individuals are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

²⁷ Refugee figure relates to the end of 2014.

²⁸ All figures relate to the end of 2014.

²⁹ Figure of Stateless persons refers to the census figure from 2010 adjusted to reflect the number of stateless persons who acquired nationality in 2011-2015. The figure includes 12,881 stateless persons holding a temporary or a permanent residence permit.

³⁰ An adjustment to 2014 end of year figures in particular for the number of asylum applications pending on appeal and review has resulted in a substantially higher figure for numbers of asylum seekers reported in South Africa for 2015. It should be noted that the current legal framework in South Africa does not enable the withdrawal (whether explicit or implicit) of asylum applications lodged.

³¹ IDP figure in South Sudan includes 105,000 people who are in an IDP-like situation.

³² Refugee figure relates to the end of 2014.

³³ The statistics of the remaining IDPs at the end of the year, while provided by the Government authorities at the district level, are being reviewed by the central authorities. Once this review has been concluded, the statistics will be changed accordingly.

³⁴ Refugee figure for Iraqis and Stateless persons in the Syrian Arab Republic was a Government estimate. UNHCR has registered and is assisting 18,300 Iraqis at the end of 2015.

³⁵ Figure of Stateless persons is Updated from the Royal Thai Government. The decrease includes the grant of Thai nationality to over 18,000 stateless people in the last three years.

³⁶ Refugee figure for Syrians in Turkey was a Government estimate.

³⁷ IDP figure in Ukraine includes 800,000 people who are in an IDP-like situation.

³⁸ The refugee figure for the United States of America is currently under review, which may lead to an adjustment in future reports.

³⁹ Figure of stateless persons refers to those with permanent residence reported in 2010 by the Government. Information on other categories of stateless persons is not available.

⁴⁰ Figure of stateless persons is an estimate and currently under review.

Source: UNHCR/Governments.

Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash ("-") indicates that the value is zero, not available or not applicable. All data are provisional and subject to change.

¹ Country or territory of origin.

² Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and those granted temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual asylum-seeker recognition.

³ This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

⁴ Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.

⁵ Refugees who have returned to their place of origin during 2015. Source: country of origin and asylum.

⁶ Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.

⁷ IDPs protected/assisted by UNHCR who have returned to their place of origin during 2015.

⁸ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality. See Annex Table 7 at <http://www.unhcr.org/statistics/15-WRD-table-7.xls> for detailed notes.

⁹ Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.

¹⁰ UNHCR has recommended on 4 April 2014 to start the process of cessation of refugee status for refugees from Croatia displaced during the 1991-95 conflict. The Office suggests that cessation enters into effect latest by the end of 2017.

¹¹ UNHCR's assistance activities for IDPs in Cyprus ended in 1999. Visit the website of the Internal Displacement Monitoring Centre (IDMC) for further information.

¹² Refugee figure for Iraqis in the Syrian Arab Republic was a Government estimate. UNHCR has registered and is assisting 18,300 Iraqis at the end of 2015. The refugee population in Jordan includes 33,200 Iraqis registered with UNHCR. The Government of Jordan estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

¹³ Figure of stateless persons was estimated from the 2014 census. It does not include an estimated 151,921 stateless IDPs, persons in an IDP-like situation who are also of concern under the statelessness mandate because they are already included within the figures on IDPs. In Rakhine State it is estimated to be approximately one million.

¹⁴ Refers to Palestinian refugees under the UNHCR mandate only.

¹⁵ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

¹⁶ An unknown number of refugees and asylum-seekers from South Sudan may be included under Sudan (in absence of separate statistics for both countries). IDP figure in South Sudan includes 105,000 people who are in an IDP-like situation.

¹⁷ The statistics of the remaining IDPs at the end of 2015, while provided by the Government authorities at the district level, are being reviewed by the central authorities. Once this review has been concluded, the statistics will be changed accordingly.

¹⁸ Figures for refugees and asylum-seekers may include citizens of South Sudan (in absence of separate statistics for both countries).

¹⁹ IDP figure in Ukraine includes 800,000 people who are in an IDP-like situation.

²⁰ A limited number of countries record refugee and asylum statistics by country of birth rather than country of origin. This affects the number of refugees reported as originating from the United States of America.

²¹ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

²² According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

Source: UNHCR/Governments.

Table 3. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of asylum, 2015

For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2015 does not equal the population at the start of 2015 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Table 3. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of asylum, 2015

For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2015 does not equal the population at the start of 2015 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

² The refugee population includes 200,000 persons originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

³ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

⁴ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

⁵ Refugee figure relates to the end of 2014.

⁶ Figures are UNHCR estimates.

⁷ Includes 33,200 Iraqi refugees registered with UNHCR in Jordan. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

⁸ Refugee figure relate to the end of 2014.

⁹ All figures relate to the end of 2014.

¹⁰ Refugee figure relates to the end of 2014.

¹¹ Refugee figure for Iraqis in the Syrian Arab Republic was a Government estimate. UNHCR is assisting 18,300 Iraqis at the end of 2015.

¹² Refugee figure for Syrians in Turkey was a Government estimate.

¹³ The refugee figure is currently under review, which may lead to an adjustment in future reports.

Table 4. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of origin, 2015

For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2015 does not equal the population at the start of 2015 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ UNHCR has recommended on 4 April 2014 to start the process of cessation of refugee status for refugees from Croatia displaced during the 1991-95 conflict. The Office suggests that cessation enters into effect latest by the end of 2017.

² Refugee figure for Iraqis in the Syrian Arab Republic is a Government estimate. UNHCR is assisting 18,300 Iraqis at the end of 2015. Figure includes 33,200 Iraqi refugees registered with UNHCR in Jordan. The Government estimates the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

³ The total figure at the end of 2015 includes 200,000 persons in Bangladesh originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

⁴ Refers to Palestinian refugees under the UNHCR mandate only.

⁵ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

⁶ A limited number of countries record refugee and asylum statistics by country of birth rather than country of origin. This affects the number of refugees reported as originating from the United States of America.

⁷ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of the People's Republic of China.

⁸ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

Table 5. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum, 2015

The refugee population is included in this table if the number was 1,000 or more at the end of 2015

For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of asylum-seeker recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2015 does not equal the population at the start of 2015 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

Figures between 1 and 4 have been replaced with an asterisk.

All data are provisional and subject to change.

Table 5. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum, 2015

The refugee population is included in this table if the number was 1,000 or more at the end of 2015

For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of asylum-seeker recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2015 does not equal the population at the start of 2015 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

Figures between 1 and 4 have been replaced with an asterisk.

All data are provisional and subject to change.

Table 5. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum, 2015

The refugee population is included in this table if the number was 1,000 or more at the end of 2015

For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of asylum-seeker recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2015 does not equal the population at the start of 2015 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

Figures between 1 and 4 have been replaced with an asterisk.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ UNHCR has recommended on 4 April 2014 to start the process of cessation of refugee status for refugees from Croatia displaced during the 1991-95 conflict. The Office suggests that cessation enters into effect latest by the end of 2017.

² Refugee population refers to the end of 2014.

³ Figure at the end of 2015 refers to 33,200 Iraqi refugees registered with UNHCR. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

⁴ Refers to Government estimates.

⁵ The total figure includes 200,000 persons originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

⁶ Refers to UNHCR estimates.

⁷ Refers to Palestinians under the UNHCR mandate only.

⁸ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

⁹ Refugee population refers to the end of 2014.

¹⁰ Refugee population refers to the end of 2014.

¹¹ Refers to Government estimates.

¹² The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

¹³ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

Table 6. Internally displaced persons (IDPs) protected/assisted by UNHCR, 2015

This table also includes people in IDP-like situations.

This table reflects only IDPs who are protected/assisted by UNHCR. These are also not necessarily representative of the entire IDP population in a given country. Many of the world's IDP situations are not covered by UNHCR and are thus not reflected. For global IDP estimates, visit the Internal Displacement Monitoring Centre at www.internal-displacement.org.

Most IDP figures are rough estimates and rounded to the nearest hundredth.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

¹ The figure of stateless persons refers to persons without citizenship in Rakhine State only and does not include an estimated 170,000 IDPs and persons in an IDP-like situation who are included under the IDP population but who are not considered nationals. The total stateless population in Rakhine State is estimated to be approximately one million.

² Nigerian returnees from Cameroon are now in IDP-like situations.

³ The statistics of the remaining IDPs at the end of the year, while provided by the Government authorities at the district level, are being reviewed by the central authorities. Once this review has been concluded, the statistics will be changed accordingly.

Table 7. Persons under UNHCR's statelessness mandate, 2015

N.B. Stateless refugees are included in Table 3 and stateless asylum-seekers in Table 12.

Data is not complete and includes estimates. Countries for which UNHCR has information about stateless persons but no reliable data have been included in the table and marked with an asterisk (*).

These statistics cover stateless persons and persons of undetermined nationality.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ Figure refers to a census from 2011 and is currently under review.

² Figure from 2009 census. 1,640 persons were registered by the Ministry of Interior as stateless at the end of 2012.

³ Number of stateless persons registered by the Department of Citizenship and Migration of the Ministry of Internal Affairs of Belarus. (In the 2009 census, 16,116 persons declared that they do not possess any nationality).

⁴ Figure adjusted to reflect the results of a verification exercise, identification of new cases and the number of individuals who had their nationality confirmed in 2014 and 2015.

⁵ Figure from the 2010 census.

⁶ Figure refers to a population of undetermined nationality.

⁷ The figure includes: i) 300,000 children abandoned at birth: Government estimate of individuals of unknown parentage who were abandoned as children and who are not considered as nationals under Ivorian law. ii) 400,000 descendants of immigrants: Government estimate of individuals who themselves or whose parents or grandparents migrated to Côte d'Ivoire before or just after independence and who did not establish their nationality at independence or before the nationality law changed in 1972. The estimate is derived in part from cases denied voter registration in 2010 because electoral authorities could not determine their nationality at the time.

⁸ Figure from the 2011 census. It includes 23 persons registered as stateless by the Government of Croatia.

⁹ Figure from the 2011 census.

¹⁰ This revised estimate of 133,770 stateless persons includes only individuals born in the country to parents who were both born abroad. It does not include individuals born in the country to one foreign-born and one Dominican-born parent, as per the previously reported figure of 210,000. This estimate does not include subsequent generations of individuals of foreign descent, as there is no reliable population data available on groups other than first-generation individuals. As such, this estimate does not include all persons without nationality in the country. It will be adjusted as official data becomes available on the number of individuals who have found an effective nationality solution.

¹¹ Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

¹² The figure does not represent the entire number of persons registered as stateless in the German Central Aliens Register. The number of stateless persons holding a humanitarian residence title (not all of whom are persons of concern to UNHCR) and the number of stateless asylum-seekers have been deducted from it.

¹³ Includes people deprived of their citizenship under previous nationality legislation, stateless individuals with permanent residence who are recognized as "stateless foreigners" and other stateless persons resident in Greece.

¹⁴ Figure refers to individuals without a nationality who were born in the Dominican Republic prior to January 2010 and who were identified by UNHCR in Haiti during the reporting period.

¹⁵ Pending a more accurate study into stateless in Iraq, the estimate of stateless persons in Iraq has been adjusted to reflect the reduction of statelessness in line with Law 26 of 2006, which allows stateless persons to apply for nationality in certain circumstances.

¹⁶ The figure does not include potentially stateless Bedouin nor all stateless former USSR citizens.

¹⁷ Updated figure from the National Institute of Statistics (ISTAT).

¹⁸ The figure of 20,000 is an estimate by UNHCR and civil society organizations based on currently available information on several communities in Kenya. This estimate is under review pending further research and mapping activities.

¹⁹ The Republic of Latvia enacted a Law on Stateless Persons on 17 February 2004, which replaced the Law on the Status of Stateless Persons in the Republic of Latvia of 18 February 1999, and which determines the legal status of persons who are not considered as citizens by the legislation of any State and whose status is not determined by the 25th April 1995 Law (quoted below).

²⁰ This figure includes persons who fall under the Republic of Latvia's 25 April 1995 Law on the Status of Those Former USSR Citizens who are not Citizens of Latvia or of Any Other State, who are granted a transitional legal status to permanently residing persons (non-citizens) which entitles them to a set of rights and obligations generally beyond the minimum rights prescribed by the 1954 Convention relating to the Status of Stateless Persons. The non-citizens enjoy the right to reside in Latvia ex lege and the right to acquire citizenship through registration and/or naturalisation (depending on age). A number of measures have been taken by the Latvian Government to facilitate their acquisition of citizenship; nonetheless, some non-citizens have chosen not to pursue naturalization. Some may have acquired a nationality other than Latvian nationality; however in the absence of reliable data in this regard, UNHCR includes in its statistical reporting the full number of non-citizens reported by Latvia.

²¹ The figure is an estimated number of individuals who are stateless, including people who are unable to establish their nationality from among the Indian community (Tamils). Estimate is based on NGO and media reports, some citing official sources.

²² 2011 census figure adjusted to reflect number of persons that acquired nationality.

²³ This figure is an estimate of stateless persons in Rakhine State derived from the 2014 census. It does not include an estimated 151,921 stateless IDPs, persons in an IDP-like situation who are also of concern under the statelessness mandate because they are already included within the figures on IDPs. In Rakhine State it is estimated to be approximately one million.

²⁴ Various studies estimate that a large number of individuals lack citizenship certificates in Nepal. While these individuals are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

²⁵ The updated figure is based on a registration exercise covering 24 municipalities in 2014 and 2015.

²⁶ Figure is from the 2011 census, likely to include 2,020 persons registered as stateless by the authorities.

²⁷ Updated figure from the Portuguese Immigration Service referring to 2013.

²⁸ The figure includes persons determined to be stateless following the statelessness determination procedure and persons with undetermined nationality who hold expired Soviet passports.

Table 7. Persons under UNHCR's statelessness mandate, 2015

N.B. Stateless refugees are included in Table 3 and stateless asylum-seekers in Table 12.

Data is not complete and includes estimates. Countries for which UNHCR has information about stateless persons but no reliable data have been included in the table and marked with an asterisk (*).

These statistics cover stateless persons and persons of undetermined nationality.

All data are provisional and subject to change.

Country of residence	Population start-2015		Population end-2015	
	Total number of persons under UNHCR's statelessness mandate	of whom: UNHCR-assisted	Total number of persons under UNHCR's statelessness mandate	of whom: UNHCR-assisted

²⁹ The figure refers to the census figure from 2010 adjusted to reflect the number of stateless persons who acquired nationality in 2011-2015. The figure includes 12,881 stateless persons holding a temporary or a permanent residence permit.

³⁰ The great majority are former Yugoslav citizens who have yet to have their Serbian nationality formally recognized through the issuance of documents proving nationality.

³¹ Figure from the 2011 census. It includes 63 stateless persons who held permits to stay in Slovakia at the end of 2011. No updated data on the number of stateless persons is available.

³² The figure is based on an NGO analysis of government registry data and may not represent the full magnitude of statelessness in Slovenia.

³³ The figure is an estimate.

³⁴ Figure based on a registration exercise in three regions and 729 people registered as stateless by the Ministry of Internal Affairs of Tajikistan.

³⁵ Updated figure from the Royal Thai Government. The decrease includes the grant of Thai nationality to over 18,000 stateless people in the last three years.

³⁶ The great majority are former Yugoslav citizens who have yet to have their nationality of The former Yugoslav Republic of Macedonia formally recognized through the issuance of documents proving nationality.

³⁷ The figure is an extrapolation of the 2001 census figure of persons who self-declared as not having a nationality. It includes 3,217 persons who are registered as stateless by the Ministry of the Interior of Ukraine.

³⁸ Figure refers to persons who have been recognized as stateless through the statelessness determination procedure in 2013 - 2015.

³⁹ Figure refers to stateless persons with permanent residence reported by the Government in 2010. Information on other categories of stateless persons is not available.

⁴⁰ The figure is an estimate and currently under review.

Table 8. Others of concern to UNHCR, 2015

This table does not include stateless persons or people in refugee-like or IDP-like situations.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

Table 9. Asylum applications and refugee status determination by country/territory of asylum, 2015

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Annex Table 10.

All data are provisional and subject to change.

Table 9. Asylum applications and refugee status determination by country/territory of asylum, 2015

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Annex Table 10.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

* Data refers to number of cases or mix of persons and cases.

** Asylum applications during 2015 are not adjusted.

¹ Protection indicators (calculated by UNHCR):

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December 2015 minus Cases pending as at 1 January 2015 divided by Cases pending as at 1 January 2015 * 100%.

² Australia's figures for asylum-seekers are based on the number of applications lodged for protection visas.

³ No information on asylum applications registered or decisions taken during 2015 is available. Pending cases refers to September 2013.

available.

⁵ Figures are UNHCR estimates.

⁶ Data include asylum-seekers registered with UNHCR as well as asylum-seekers who have been pre-registered but who are pending official registration with UNHCR.

Table 10. Asylum applications and refugee status determination by country/territory of asylum and level in the procedure, 2015

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

* Asylum applications during 2015 are not adjusted.

¹ Type of application: N=New; R=Repeat/reopened; A=Appeal/administrative review; J=Court.

² Data refers to number of cases (C) or persons (P): App. = Applications; Dec. = Decisions taken during the year.

³ T=Type: G=Government; U=UNHCR; J=Government and UNHCR jointly.

⁴ L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Citizenship and Immigration Services; EO=US Executive Office of Immigration Review; JR=Judicial Review; SP=Subsidiary protection; FA=First instance and appeal; TP=Temporary protection; TA=Temporary asylum.

⁵ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

⁶ Australia's figures for asylum-seekers are based on the number of applications lodged for protection visas.

⁷ No information on asylum applications registered or decisions taken during 2015 is available. Pending cases refers to September 2013.

⁸ Asylum applications registered and decisions taken is limited to UNHCR data. Data on asylum applications registered with and decisions taken by the Government of Israel are not available.

⁹ Figures are UNHCR estimates.

¹⁰ Refers to refugee status determination conducted in Kosovo S/RES/1244(1999).

¹¹ Data include asylum-seekers registered with UNHCR as well as asylum-seekers who have been pre-registered but who are pending official registration with UNHCR.

Table 11. Asylum applications and refugee status determination by origin, 2015

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

All data are provisional and subject to change.

Table 11. Asylum applications and refugee status determination by origin, 2015

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

¹ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December 2015 minus Cases pending as at 1 January 2015 divided by Cases pending as at 1 January 2015 * 100%.

Table 12. Asylum applications and refugee status determination by origin and country/territory of asylum, 2015

The origin is included if the total number of applications submitted during 2015 was 100 or more.

Values between 1 and 4 have been replaced with an asterisk (*). See Table 10 regarding reporting of persons or cases.

All data are provisional and subject to change.

Table 12. Asylum applications and refugee status determination by origin and country/territory of asylum, 2015

The origin is included if the total number of applications submitted during 2015 was 100 or more.

Values between 1 and 4 have been replaced with an asterisk (*). See Table 10 regarding reporting of persons or cases.

All data are provisional and subject to change.

Origin	Country/ territory of asylum	Type of applic. ¹	T ²	L ³	Cases pending at the start 2015	Applied during 2015	Decisions during 2015					Cases pending at the end of 2015	Indicators ⁴

Table 12. Asylum applications and refugee status determination by origin and country/territory of asylum, 2015

The origin is included if the total number of applications submitted during 2015 was 100 or more.

Values between 1 and 4 have been replaced with an asterisk (*). See Table 10 regarding reporting of persons or cases.

All data are provisional and subject to change.

Origin	Country/ territory of asylum	Type of applic. ¹	T ²	L ³	Cases pending at the start 2015	Applied during 2015	Decisions during 2015					Cases pending at the end of 2015	Indicators ⁴

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

¹ Type of application: N=New; R=Repeat/reopened; A=Appeal/administrative review; J=Court.

² T=Type: G=Government; U=UNHCR; J=Government and UNHCR jointly.

³ L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Citizenship and Immigration Services;

EO=US Executive Office of Immigration Review; JR=Judicial Review; SP=Subsidiary protection; FA=First instance and appeal; TP=Temporary protection; TA=Temporary asylum.

⁴ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Change in pending cases: Cases pending as at 31 December 2015 minus Cases pending as at 1 January 2015 divided by Cases pending as at 1 January 2015 * 100%.

⁶ Australia's figures for asylum-seekers are based on the number of applications lodged for protection visas.

⁷ Figures are UNHCR estimates.

⁸ Data include asylum-seekers registered with UNHCR as well as asylum-seekers who have been pre-registered but who are pending official registration with UNHCR.

Table 13. Demographic composition of populations of concern to UNHCR, end-2015

* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is low (i.e. below 50%), the percentages may not be representative for the total population of concern in the country. The population for which demographic data is available does not necessarily equal the total pop. of concern in the country. See notes in Annex Table 1.
All data are provisional and subject to change.

Table 13. Demographic composition of populations of concern to UNHCR, end-2015

* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is low (i.e. below 50%), the percentages may not be representative for the total population of concern in the country. The population for which demographic data is available does not necessarily equal the total pop. of concern in the country. See notes in Annex Table 1.
All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

Table 13. Demographic composition of populations of concern to UNHCR, end-2015

* Indicates the proportion of the population of concern in the country for which the demographic data are available. If the coverage is low (i.e. below 50%), the percentages may not be representative for the total population of concern in the country. The population for which demographic data is available does not necessarily equal the total pop. of concern in the country. See notes in Annex Table 1.
All data are provisional and subject to change.

Country/territory of asylum/residence	Population for which demographic data is available	Demographic indicators														Population of concern to UNHCR end-2015	Coverage*	
		Share of age group in total						Percentage female per age group									Age/ sex	Sex only
		0-4	5-11	12-17	<18	18-59	60+>	0-4	5-11	12-17	<18	18-59	60+>	Var.	Total			
¹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.																		

Table 14. Demographic composition of refugees and people in refugee-like situations, end-2015

* Indicates the proportion of refugees and people in a refugee-like situation in the country for which the demographic data are available.

If the coverage is low (ie. below 50%), the percentages may not be representative for the total population in the country.

The number of refugees and people in refugee-like situation for which demographic data is available does not necessarily equal the total refugee population in the country.

All data are provisional and subject to change.

Table 14. Demographic composition of refugees and people in refugee-like situations, end-2015

* Indicates the proportion of refugees and people in a refugee-like situation in the country for which the demographic data are available.

If the coverage is low (ie. below 50%), the percentages may not be representative for the total population in the country.

The number of refugees and people in refugee-like situation for which demographic data is available does not necessarily equal the total refugee population in the country.

All data are provisional and subject to change.

Table 14. Demographic composition of refugees and people in refugee-like situations, end-2015

* Indicates the proportion of refugees and people in a refugee-like situation in the country for which the demographic data are available.

If the coverage is low (ie. below 50%), the percentages may not be representative for the total population in the country.

The number of refugees and people in refugee-like situation for which demographic data is available does not necessarily equal the total refugee population in the country.

All data are provisional and subject to change.

Country/territory of asylum/residence	Refugees for which demographic data is available	Demographic indicators														Refugees and people in refugee-like situation end-2015	Coverage*

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

¹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

² The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

³ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

⁴ Includes 33,200 Iraqi refugees registered with UNHCR in Jordan. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

Table 15. Major locations and demographic composition of populations of concern to UNHCR, end-2015

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

This table shows individual locations where the population numbered 500 or more only. Name of location as provided by UNHCR country office.

Important notes:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

All data are provisional and subject to change.

Table 15. Major locations and demographic composition of populations of concern to UNHCR, end-2015

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

This table shows individual locations where the population numbered 500 or more only. Name of location as provided by UNHCR country office.

Important notes:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

All data are provisional and subject to change.

Country or territory of asylum/residence	Type of location *	Type of accommodation	Name of location	Population of concern to UNHCR at location, end-2015	Demographic indicators													Coverage**		
					Share of age group in total						Percentage female per age group						Total	Age/sex	Sex only	
					0-4	5-11	12-17	<18	18-59	60+>	0-4	5-11	12-17	<18	18-59	60+>				Var.

Table 15. Major locations and demographic composition of populations of concern to UNHCR, end-2015

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

This table shows individual locations where the population numbered 500 or more only. Name of location as provided by UNHCR country office.

Important notes:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

All data are provisional and subject to change.

Table 15. Major locations and demographic composition of populations of concern to UNHCR, end-2015

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

This table shows individual locations where the population numbered 500 or more only. Name of location as provided by UNHCR country office.

Important notes:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

All data are provisional and subject to change.

Country or territory of asylum/residence	Type of location *	Type of accommodation	Name of location	Population of concern to UNHCR at location, end-2015	Demographic indicators													Coverage**		
					Share of age group in total						Percentage female per age group						Age/sex	Sex only		
					0-4	5-11	12-17	<18	18-59	60+>	0-4	5-11	12-17	<18	18-59	60+>			Var.	Total

Table 15. Major locations and demographic composition of populations of concern to UNHCR, end-2015

* Type of location: U=Urban; R=Rural/Dispersed; V=Various/Unknown.

** Indicates the proportion of the population of concern in urban or rural locations for which the demographic characteristics are available.

This table shows individual locations where the population numbered 500 or more only. Name of location as provided by UNHCR country office.

Important notes:

The population by location does not necessarily add up to the total population of concern in the country.

Countries with no information on location or demographics are not included.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.² The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.³ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.

Table 17. Population of concern to UNHCR by type of accommodation, end-2015

See also notes in Annex Table 1.

All data are provisional and subject to change.

Country or territory of asylum/residence	Planned/ managed camp	Collective center	Individual accommodation (private)	Self-settled camp	Reception/ transit camp	Undefined/ unknown	Total
--	-----------------------------	----------------------	--	----------------------	----------------------------	-----------------------	-------

⁴ Includes 33,200 Iraqi refugees registered with UNHCR in Jordan. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.

⁵ Refugee figure for Iraqis in the Syrian Arab Republic was a Government estimate. UNHCR has registered and is assisting 18,300 Iraqis at the end of 2015.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.² The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.³ The number of Rwandan refugees in the Democratic Republic of the Congo is subject to change based on an ongoing registration exercise. The figure 245,000 was provided by the Government of Democratic Republic of the Congo.⁴ Includes 33,200 Iraqi refugees registered with UNHCR in Jordan. The Government estimated the number of Iraqis at 400,000 individuals at the end of March 2015. This includes refugees and other categories of Iraqis.⁵ Refugee figure for Iraqis in the Syrian Arab Republic was a Government estimate. UNHCR has registered and is assisting 18,300 Iraqis at the end of 2015.

Table 20. Spontaneous refugee arrivals, 2015

This table includes individuals who were recognized on a group basis or who were granted temporary protection or stay by their host country. The origin and country of asylum is listed if the total numbered 50 or more.

All data are provisional and subject to change.

Notes

¹ Since 2007, people in refugee-like situations are included in the refugee estimates. Figures as from 2007 are not fully comparable with previous years.

² Since 2007, people in IDP-like situations are included in the IDP estimates. IDP figures since 2007 are not fully comparable with previous years.

³ Persons under UNHCR's statelessness mandate were included in the category "Others of concern" until 2003.
