Main Activities

Protection & Durable Solutions

- Provide technical support and advice to national authorities involved in the drafting of refugee/migration legislation and the implementation of fair and efficient refugee status determination procedures (RSD). Capacity building activities are implemented to strengthen the National Refugee Commission, and its technical secretariat in order to ensure due process in admission, registration, eligibility interviews, RSD assessments and right to appeal.

Since the establishment of the “Special Programme for the Issuance of Humanitarian Visas for Foreigners affected by the Conflict in the Syrian Arabic Republic” in 2014, Argentina has granted over 400 humanitarian visas. UNHCR seeks to help strengthen the program and promote sustainable resettlement models through the ERCM.
- Advocate for the facilitation of the naturalization procedure for refugees and provide the necessary information to ensure they are able to make an informed decision on this option.
- Advocate for the adoption of a law for the protection of stateless people as well as the establishment of a stateless determination procedure in line with the pledges made by the Government of Argentina (Brazil Plan of Action).
- Promote actions aimed at identifying, preventing and responding to situations of SGBV affecting refugee women and children through regular protection dialogues and empowerment activities.
