Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash ("-") indicates that the value is zero, not available or not applicable.

¹ Country or territory of asylum or residence.

² Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection

³ This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

⁴ Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.

⁵ Refugees who have returned to their place of origin during the calendar year. Source: country of origin and asylum.

⁶ Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.

⁷ IDPs protected/assisted by UNHCR who have returned to their place of origin during the calendar year.

⁸ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality.

⁹ Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.

¹⁰ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

¹¹ The total figure includes 200,000 persons originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

¹² The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

¹³ UNHCR's assistance activities for IDPs in Cyprus ended in 1999. Visit the website of the Internal Displacement Monitoring Centre (IDMC) for further information.

¹⁴ The figure for stateless persons is based on an official survey released in May 2013 by the National Bureau for Statistics and refers to the estimated number of individuals resident in the country who belong to the first generation born on Dominican territory to Haitian migrant parents. No population data is currently available on subsequent generations born in the Dominican Republic.

¹⁵ Figure for asylum-seekers refers to mid-2013 in the absence of updated information available.

¹⁶ Refugee figures in Germany were reduced due to an alignment of the definitions used to count refugees. As a result, only those with a particular protection status are now included in the statistics reported by UNHCR. Persons potentially of concern to UNHCR but who cannot be identified as such based on the nature of their recorded status are no longer taken into account for statistical purposes. This figure is consistent with the one used by the Government of Germany when responding to Parliament regarding queries over the number of refugees and persons benefiting from protection status in Germany.

¹⁷ All figures refer to mid-2013 in the absence of updated information available.

¹⁸ Figures are UNHCR estimates.

¹⁹ Refugee figure for Iraqis in Jordan is a Government estimate. UNHCR has registered and is assisting 20,300 Iraqis at the end of 2013.

²⁰ IDP figure in Myanmar includes 35,000 people who are in an IDP-like situation.

²¹ Various studies estimate that a large number of individuals lack citizenship certificates in Nepal. While these individuals are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

²² Data for asylum-seekers refers to the end of 2011 (no updated information available).

²³ Asylum-seekers (pending cases) refers to an estimated 86,600 undecided cases at first instance at the end of 2013 and 145,400 undecided cases on appeal at the end of 2012.

²⁴ IDP figure in South Sudan includes 155,200 people who are in an IDP-like situation.

²⁵ The statistics of the remaining IDPs at the end of 2013, while provided by the Government authorities at the district level, are being reviewed by the central authorities. Once this review has been concluded, the statistics will be changed accordingly.

²⁶ IDP figure in Sudan includes 77,300 people who are in an IDP-like situation.

²⁷ Refugee figure for Iraqis in the Syrian Arab Republic is a Government estimate. UNHCR has registered and is assisting 28,300 Iraqis at the end of 2013.

²⁸ The reported figure for persons in a refugee-like situation refers to 57,500 unregistered persons originating from Myanmar living in the refugee camps.

²⁹ Refugee figure for Syrians in Turkey is a Government estimate.

³⁰ The refugee figure for the United States of America is currently under review, which may lead to an adjustment in future reports.

Notes

The data are generally provided by Governments, based on their own definitions and methods of data collection.

A dash ("-") indicates that the value is zero, not available or not applicable.

¹ Country or territory of origin.

² Persons recognized as refugees under the 1951 UN Convention/1967 Protocol, the 1969 OAU Convention, in accordance with the UNHCR Statute, persons granted a complementary form of protection and those granted temporary protection. In the absence of Government figures, UNHCR has estimated the refugee population in many industrialized countries based on 10 years of individual refugee recognition.

³ This category is descriptive in nature and includes groups of persons who are outside their country or territory of origin and who face protection risks similar to those of refugees, but for whom refugee status has, for practical or other reasons, not been ascertained.

⁴ Persons whose application for asylum or refugee status is pending at any stage in the asylum procedure.

⁵ Refugees who have returned to their place of origin during the calendar year. Source: country of origin and asylum.

⁶ Persons who are displaced within their country and to whom UNHCR extends protection and/or assistance. It also includes people in IDP-like situations. This category is descriptive in nature and includes groups of persons who are inside their country of nationality or habitual residence and who face protection risks similar to those of IDPs but who, for practical or other reasons, could not be reported as such.

⁷ IDPs protected/assisted by UNHCR who have returned to their place of origin during the calendar year.

⁸ Refers to persons who are not considered as nationals by any State under the operation of its law. This category refers to persons who fall under the agency's statelessness mandate because they are stateless according to this international definition, but data from some countries may also include persons with undetermined nationality.

⁹ Refers to individuals who do not necessarily fall directly into any of the other groups but to whom UNHCR may extend its protection and/or assistance services. These activities might be based on humanitarian or other special grounds.

¹⁰ UNHCR has recommended on 4 April 2014 to start the process of cessation of refugee status for refugees from Croatia displaced during the 1991-95 conflict. The Office suggests that cessation enters into effect latest by the end of 2017.

¹¹ UNHCR's assistance activities for IDPs in Cyprus ended in 1999. Visit the website of the Internal Displacement Monitoring Centre (IDMC) for further information.

¹² Refugee figures for Iraqis in Jordan and the Syrian Arab Republic are Government estimates. UNHCR has registered and is assisting 48,600 Iraqis in both countries at year-end.

¹³ IDP figure in Myanmar includes 35,000 people who are in an IDP-like situation.

¹⁴ Refers to Palestinian refugees under the UNHCR mandate only.

¹⁵ IDP figure in South Sudan includes 155,200 people who are in an IDP-like situation.

¹⁶ The statistics of the remaining IDPs at the end of 2013, while provided by the Government authorities at the district level, are being reviewed by the central authorities. Once this review has been concluded, the statistics will be changed accordingly.

¹⁷ IDP figure in Sudan includes 77,300 people who are in an IDP-like situation.

¹⁸ A limited number of countries record refugee and asylum statistics by country of birth rather than country of origin. This affects the number of refugees reported as originating from the United States of

¹⁹ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

²⁰ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

Notes

¹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

² The total figure includes 200,000 persons originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

³ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

⁴ Refugee figures were reduced due to an alignment of the definitions used to count refugees. As a result, only those with a particular protection status are now included in the statistics reported by UNHCR. Persons potentially of concern to UNHCR but who cannot be identified as such based on the nature of their recorded status are no longer taken into account for statistical purposes. This figure is consistent with the one used by the Government of Germany when responding to Parliament regarding queries over the number of refugees and persons benefiting from protection

⁵ Data is limited to the first half of 2013 only.

⁶ Figures are UNHCR estimates.

Table 3. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of asylum, 2013

N.B. For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" **exclude** population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2013 does not equal the population at the start of 2013 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Country/ territory of asylum	Population start-2013		Major increases during 2013			Major decreases during 2013					Population end-2013		
	Total	of whom: UNHCR- assisted	Spontaneous arrivals			Total	of whom: UNHCR- assisted	Resettlement	of whom: UNHCR- assisted	Cessa- tion	Natura- lization	Total	of whom: UNHCR- assisted
			Group recog- nition	Temporary protection	Indiv. recogn.								

⁷ Refugee figure for Iraqis in Jordan is a Government estimate. UNHCR is assisting 20,300 Iraqis at the end of 2013. Some 2,283 Iraqi refugees were newly registered in 2012; the total number who arrived in 2012 is unknown.

⁸ Refugee figure for Iraqis in the Syrian Arab Republic is a Government estimate. UNHCR is assisting 28,300 Iraqis at the end of 2013.

⁹ The total figure at the end of 2013 includes 57,500 unregistered persons originating from Myanmar living in the refugee camps.

¹⁰ The refugee figure is currently under review, which may lead to an adjustment in future reports.

¹¹ Voluntary repatriation figure refers to Iraqi refugees who returned in 2013 but whose previous country of asylum is unknown.

Table 4. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of origin, 2013

N.B. For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2013 does not equal the population at the start of 2013 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Table 4. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of origin, 2013**N.B.** For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2013 does not equal the population at the start of 2013 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Table 4. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by country/territory of origin, 2013

N.B. For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of individual refugee recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2013 does not equal the population at the start of 2013 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

All data are provisional and subject to change.

Notes

¹ UNHCR has recommended on 4 April 2014 to start the process of cessation of refugee status for refugees from Croatia displaced during the 1991-95 conflict. The Office suggests that cessation enters into effect latest by the end of 2017.

² Refugee figure for Iraqis in Jordan and the Syrian Arab Republic is a Government estimate. UNHCR is assisting 48,600 Iraqis in both countries at the end of 2013.

³ A limited number of countries record refugee and asylum statistics by country of birth rather than country of origin. This affects the number of refugees reported as originating from the United States of America.

⁴ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of the People's Republic of China.

⁵ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

Table 5. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum, 2013

The refugee population is included in this table if the number was 5,000 or more at the end of 2013.

Table 5. Refugees and people in a refugee-like situation, excluding asylum-seekers, and changes by origin and country of asylum, 2013

The refugee population is included in this table if the number was 5,000 or more at the end of 2013.

N.B. For many industrialized countries, UNHCR has estimated the refugee population based on 10 years of asylum-seeker recognition.

The columns "Major increases" and "Major decreases" exclude population changes resulting from administrative corrections, adjustments as a result of registration, new estimates as well as births and deaths. In some cases, the population at the end of 2013 does not equal the population at the start of 2013 plus increases and decreases. This discrepancy is due to the fact that the voluntary repatriation figures include estimates from countries of return. In addition, the full details of the changes in the refugee population in industrialized countries are often unknown.

* Voluntary repatriation shows a best estimate, based on country of asylum and country of origin reports.

Figures between 1 and 4 have been replaced with an asterisk.

All data are provisional and subject to change.

Notes

¹ Refugee figures were reduced due to an alignment of the definitions used to count refugees. As a result, only those with a particular protection status are now included in the statistics reported by UNHCR. Persons potentially of concern to UNHCR but who cannot be identified as such based on the nature of their recorded status are no longer taken into account for statistical purposes. This figure is consistent with the one used by the Government of Germany when responding to Parliament regarding queries over the number of refugees and persons benefiting from protection status in Germany.

² UNHCR has recommended on 4 April 2014 to start the process of cessation of refugee status for refugees from Croatia displaced during the 1991-95 conflict. The Office suggests that cessation enters into effect latest by the end of 2017.

³ Data is limited to the first half of 2013 only.

⁴ Refers to Government estimates.

⁵ The total figure includes 200,000 persons originating from Myanmar in a refugee-like situation. The Government of Bangladesh estimates the population to be between 300,000 and 500,000.

⁶ The total figure at the end of 2013 includes 57,500 unregistered persons originating from Myanmar living in the refugee camps.

⁷ Refers to Palestinians under the UNHCR mandate only.

⁸ The 300,000 Vietnamese refugees are well integrated and in practice receive protection from the Government of China.

⁹ According to the Government of Algeria, there are an estimated 165,000 Sahrawi refugees in the Tindouf camps.

Table 6. Internally displaced persons (IDPs) protected/assisted by UNHCR, 2013**This table also includes people in IDP-like situations.**

This table reflects only IDPs who are protected/assisted by UNHCR. These are also not necessarily representative of the entire IDP population in a given country. Many of the world's IDP situations are not covered by UNHCR and are thus not reflected. For global IDP estimates, visit the Internal Displacement Monitoring Centre at www.internal-displacement.org.

Most IDP figures are rough estimates and rounded to the nearest hundredth.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available.

¹ Figure from 2011 census.

² Figure from 2009 census. 1,640 persons are registered by the Ministry of Interior as stateless at the end of 2012.

³ Number of stateless persons registered by the Department of Citizenship and Migration of the Ministry of Interior of Belarus. (In the 2009 census, 16,116 persons declared that they do not possess any nationality)

⁴ The start-year figure was an estimate. During the year, 792 individuals were identified as falling under UNHCR's statelessness mandate.

⁵ The figure includes: i) 300,000 Children abandoned at birth: Government estimate of individuals of unknown parentage who were abandoned as children and who are not considered as nationals under Ivorian law. ii) 400,000 Descendants of Immigrants: Government estimate of individuals who themselves or whose parents or grandparents migrated to Côte d'Ivoire before or just after independence and who did not establish their nationality at independence or before the nationality law changed in 1972. The estimate is derived in part from the cases denied voter registration in 2010 because electoral authorities could not determine their nationality at the time.

⁶ Figure from the 2011 census. It includes 36 persons registered as stateless as well as 54 persons registered as of undetermined nationality by the Government of Croatia.

Table 7. Persons under UNHCR's statelessness mandate, 2013

N.B. Stateless refugees are included in Table 3 and stateless asylum-seekers in Table 12.

Data is not complete and includes estimates. Countries for which UNHCR has information about stateless persons but no reliable data have been included in the table and marked with an asterisk (*).

These statistics cover stateless persons and persons of undetermined nationality.

All data are provisional and subject to change.

Country of residence	Population start-2013		Population end-2013	
	Total number of persons under UNHCR's statelessness mandate	<i>of whom: UNHCR-assisted</i>	Total number of persons under UNHCR's statelessness mandate	<i>of whom: UNHCR-assisted</i>

⁷ Figure from the 2011 census.

⁸ Almost all people recorded as being stateless have permanent residence and enjoy more rights than foreseen in the 1954 Convention relating to the Status of Stateless Persons.

⁹ The figure does not represent the entire number of persons registered as stateless in the German Central Aliens Register. The number of stateless persons holding a humanitarian residence title (not all of whom are persons of concern to UNHCR) and the number of stateless asylum-seekers have been deducted from it.

¹⁰ Includes people deprived of their citizenship under previous nationality legislation, stateless individuals with permanent residence who are recognized as "stateless foreigners" and other stateless persons resident in Greece.

¹¹ The figure is an estimate and currently under review.

¹² The figure refers to end of 2012; no data available for 2013. The figure does not include potentially stateless Bedouin nor all stateless former USSR citizens.

¹³ Figure refers to the end of 2011; no data available for 2013.

¹⁴ The figure of 20,000 is an estimate by UNHCR and civil society organizations based on currently available information on several communities in Kenya. This estimate is under review pending further research and mapping activities.

¹⁵ The Republic of Latvia enacted a Law on Stateless Persons on 17 February 2004, which replaced the Law on the Status of Stateless Persons in the Republic of Latvia of 18 February 1999, and which determines the legal status of persons who are not considered as citizens by the legislation of any State and whose status is not determined by the 25th

¹⁶ The Republic of Latvia, by the 25th April 1995 Law on the Status of Those Former USSR Citizens who are not Citizens of Latvia or of Any Other State, granted a transitional legal status to permanently residing persons (non-citizens) entitling them to a set of rights and obligations beyond the minimum rights prescribed by the 1954 Convention relating to the Status of Stateless Persons.

¹⁷ The figure is an estimated number of individuals who are stateless, including people who are unable to establish their nationality from among the Indian community (Tamils). Estimate is based on NGO and media reports, some citing official sources.

¹⁸ Figure is based on the 2011 census.

¹⁹ Muslim residents of northern Rakhine State.

²⁰ Various studies estimate that a large number of individuals lack citizenship certificates in Nepal. While these individuals are not all necessarily stateless, UNHCR has been working closely with the Government of Nepal and partners to address this situation.

²¹ Figure from a 2012 survey undertaken by the Government and UNHCR in southern Mindanao.

²² Figure from the 2011 census.

²³ Figure from the 2011 census.

²⁴ Figure from the 2010 census, which likely includes approximately 25,000 stateless persons registered by the Federal Migration Service of the Russian Federation.

²⁵ The great majority are former Yugoslav citizens who have yet to have their Serbian nationality formally recognized through the issuance of documents proving nationality.

²⁶ Figure from the 2011 census. It includes 63 stateless persons who held permits to stay in Slovakia at the end of 2011. No updated data on the number of stateless persons were available.

²⁷ The figure is based on an NGO analysis of government registry data and may not represent the full magnitude of statelessness in Slovenia.

²⁸ The figure is an estimate and takes into account the number of stateless persons who are believed to have departed the Syrian Arab Republic.

²⁹ Figure is from 2010 census, likely to include 308 persons registered as stateless by the Ministry of Internal Affairs of Tajikistan.

³⁰ Figure from the 2000 census.

³¹ The great majority are former Yugoslav citizens who have yet to have their nationality of The former Yugoslav Republic of Macedonia formally recognized through the issuance of documents proving nationality.

³² The figure is an extrapolation of the 2001 census figure of persons who self-declared as not having a nationality. It includes 3,217 persons who are registered as stateless by the Ministry of the Interior of Ukraine.

³³ Figure refers to the end of 2005.

Table 8. Others of concern to UNHCR, 2013N.B. This table does not include stateless persons or people in a refugee-like or IDP-like situations.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

Table 9. Asylum applications and refugee status determination by country/territory of asylum, 2013

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Table 10.

All data are provisional and subject to change.

Table 9. Asylum applications and refugee status determination by country/territory of asylum, 2013

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Table 10.

All data are provisional and subject to change.

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

Table 9. Asylum applications and refugee status determination by country/territory of asylum, 2013

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow for monitoring of the number of decisions taken, but they are not indicative of the final outcome of the procedure for negative decisions. For information on recognition rates, see Table 10.

All data are provisional and subject to change.

Country/ territory of asylum	Pending start-2013		Applied during 2013	Decisions during 2013					Pending end-2013		Protection indic. ¹	
	Total	of whom: UNHCR assisted		Positive		Rejected	Otherw. closed	Total	Total	of whom: UNHCR assisted	O/w. closed rate	Change pending cases (%)
				Conv- ention status	Comple. protect. status							

* Data refers to number of cases or mix of persons and cases.

¹ Protection indicators (calculated by UNHCR):

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December 2013 minus Cases pending as at 1 January 2013 divided by Cases pending as at 1 January 2013 * 100%.

² From 1 July 2013 there were changes to the official methodology utilized by the Government of Australia in counting asylum-seekers who arrived in Australia by boat. Since that time, figures have been based on the number of applications lodged for protection visas. From 1 January 2013 to 30 June 2013, asylum-seekers who arrived in Australia by boat were included once they had been screened in to a refugee status determination process. Asylum-seekers who arrive in Australia by boat and who have been transferred to third countries for refugee status determination are not included in the official statistics.

³ Figures refer to mid-2013.

⁴ Figures are UNHCR estimates.

⁵ Pending cases at start-2013 and end-2013 refer to the end of 2011 (no updated data available).

⁶ 2013 data are estimated and subject to change. Pending cases refers to an estimated 86,600 undecided cases at first instance at the end of 2013 and 145,400 undecided cases on appeal at the end of 2012.

⁷ Data include asylum-seekers registered with UNHCR as well as asylum-seekers who have been pre-registered but who are pending official registration with UNHCR.

⁸ Pending cases at start-2013 exclude individuals pending a decision on their asylum claim with the Executive Office for Immigration Review due to unavailability of data.

Table 10. Asylum applications and refugee status determination by country/territory of asylum and level in the procedure, 2013

Table 10. Asylum applications and refugee status determination by country/territory of asylum and level in the procedure, 2013

All data are provisional and subject to change.

Country/ territory of asylum	Cases/ Persons***		Procedure		Pending start-13	Applied during 2013	Decisions during 2013					Pending end-13	Protection indicators ¹		
							Positive		Rejected	Otherw. closed	Total		Recognition rates		O/w. closed rate
	App.	Dec.	T*	L**	Total	Conv- ention status	Comple. protect. status	Ref. status				Total			

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

¹ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December minus Cases pending as at 1 January divided by Cases pending as at 1 January * 100%.

² From 1 July 2013 there were changes to the official methodology utilized by the Government of Australia in counting asylum-seekers who arrived in Australia by boat. Since that time, figures have been based on the number of applications lodged for protection visas. From 1 January 2013 to 30 June 2013, asylum-seekers who arrived in Australia by boat were included once they had been screened in to a refugee status determination process. Asylum-seekers who arrive in Australia by boat and who have been transferred to third countries for refugee status determination are not included in the official statistics.

³ Figures refer to mid-2013.

⁴ Figures refer to the end of 2012.

⁵ Figures are UNHCR estimates.

⁶ Pending cases at start-2013 and end-2013 refer to the end of 2011 (no updated data available).

⁷ Data are estimated and subject to change.

⁸ Figures refer to the end of 2012. No data on applications registered or decision taken during 2013 are available.

⁹ Switzerland (FI): complementary protection refers to the year when it enters into force even though it might have been granted earlier.

¹⁰ Data include asylum-seekers registered with UNHCR as well as asylum-seekers who have been pre-registered but who are pending official registration with UNHCR.

¹¹ Pending cases at start-2013 exclude individuals pending a decision on their asylum claim with the Executive Office for Immigration Review due to unavailability of data.

* T=Type; G=Government; U=UNHCR; J=Government and UNHCR jointly.

** L=Level: NA=New Applications; FI=First instance decisions; AR=Administrative Review decisions; RA=Repeat/reopened applications; IN=US Citizenship and Immigration Services;

EO=US Executive Office of Immigration Review; JR=Judicial Review; SP=Subsidiary protection; FA=First instance and appeal; TP=Temporary protection; TA=Temporary asylum.

*** Data refers to number of cases (C) or persons (P): App. = Applications; Dec. = Decisions taken during the year.

Table 11. Asylum applications and refugee status determination by origin, 2013

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

All data are provisional and subject to change.

Table 11. Asylum applications and refugee status determination by origin, 2013

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

All data are provisional and subject to change.

Table 11. Asylum applications and refugee status determination by origin, 2013

In countries with more than one level in the procedure (first instance, appeal, etc.), the figures for both procedures have been added up. As a result, appeal cases might have been counted more than once (once at first instance and once on appeal). These data allow to monitor the number of decisions taken, but they are not indicative of the final outcome of the procedure of negative decisions. For instance, recognition rates for nationalities which tend to appeal a rejection are underestimated.

All data are provisional and subject to change.

Origin	Pending start-2013		Applied during 2013	Decisions during 2013					Pending end-2013		Protection indicators ¹			
	Total	of whom: UNHCR assisted		Positive		Rejected	Otherw. closed	Total	Total	of whom: UNHCR assisted	Recognition rates		O/w. closed rate	Change pending cases (%)

Notes

A dash ("-") indicates that the value is zero or not available. Two dots ("..") indicate that the value is not available.

¹ Protection indicators (calculated by UNHCR):

Refugee status recognition rate: Recognized divided by total of Recognized, Other positive and Rejected * 100%.

Total recognition rate: Recognized plus Other positive divided by total of Recognized, Other positive and Rejected * 100%.

Otherwise closed rate: Otherwise closed divided by Total no. of decisions * 100%.

Change in pending cases: Cases pending as at 31 December 2013 minus Cases pending as at 1 January 2013 divided by Cases pending as at 1 January 2013 * 100%.
